You do not need to be a developer to set up basic automations. Many platforms offer pre-built templates and tutorials that walk you through the process step by step. Start with one simple automation and gradually build from there as you become more comfortable.

One of the less obvious but equally damaging scams involves spreadsheet templates for Ebay Ocr Spreadsheet that contain hidden macros or formulas designed to send your data to a third party. Before downloading any template from an untrusted source, scan it with antivirus software and check the formulas for any suspicious external links. Stick to templates from reputable sources and always review the code if you have the technical skills. If a template asks for permissions that seem unnecessary, such as access to your email or contacts, that is a major red flag.
