

Freightos Automation Spreadsheet - Complete Guide (2026)

Category: Automation & Bots | Updated: 2026-04-03

Every day, thousands of people search for Freightos Automation Spreadsheet, but very few find the kind of detailed, no-nonsense information they actually need. Whether you are trying to save money on international shipping, track your orders more efficiently, or simply avoid common pitfalls, this guide has you covered. We have organized the content into clear sections so you can easily jump to whatever topic matters most to you. Feel free to bookmark this page and come back whenever you need a reference.

For those who want to get the most out of Freightos Automation Spreadsheet, learning a few key formulas can make a massive difference. You do not need to be a programmer or a math genius. Start with basic formulas like SUM, AVERAGE, and COUNT. Then move on to VLOOKUP and INDEX-MATCH for cross-referencing data between sheets. Conditional formatting is another powerful feature that can automatically highlight items that need your attention, such as orders that have been pending for more than a week or items where the profit margin falls below a certain threshold. These small improvements compound over time and can significantly boost your productivity.

Shipping insurance is something that many buyers overlook when using Freightos Automation Spreadsheet, but it can be a worthwhile investment for higher-value orders. Most platforms offer some form of shipping protection, but the coverage details vary. Read the fine print carefully to understand what is and is not covered. In our experience, the small additional cost of insurance is worth the peace of mind, especially for orders exceeding \$100. If a package gets lost or damaged, having insurance dramatically simplifies the refund process and reduces the amount of time you spend dealing with disputes.

Here are some tips that we wish someone had told us when we first started with Freightos Automation Spreadsheet. First, always use a dedicated email address for your shopping accounts. This keeps your main inbox clean and makes it easier to track order-related communications. Second, set up price alerts for items you are interested in. Many platforms and tools allow you to set a target price, and you will get notified when the item drops to that level. Third, take advantage of seasonal sales and events like Singles Day, Black Friday, and end-of-season clearances. Planning your purchases around these events can lead to substantial savings.

A common pitfall that catches many Freightos Automation Spreadsheet users off guard is currency conversion fees. Many platforms display prices in USD or EUR but process payments in a different currency. This can result in unfavorable exchange rates and hidden fees that are not immediately visible. We recommend using a currency conversion tool or a fee-free debit card like Wise to make international payments. This gives you the real exchange rate and can save you 3-5% on each transaction compared to using a standard credit card.

If you are working with Freightos Automation Spreadsheet across multiple devices, cloud synchronization is something you absolutely need to set up properly. The last thing you want is to accidentally overwrite hours of work because two devices were editing the same file simultaneously. Most modern spreadsheet tools offer version history, which allows you to roll back changes if something goes wrong. We recommend enabling auto-save and setting up a regular backup schedule. Some users prefer to keep a local backup in addition to the cloud version, just to be extra safe. It only takes a few minutes to set up, and it can be a lifesaver.

We hope this guide has given you a clear and honest picture of what to expect with Freightos Automation Spreadsheet. The online shopping landscape is constantly evolving, and staying informed is your best defense against scams and your best tool for finding great deals. Bookmark this page and check back periodically, as we update our content regularly to reflect the latest developments. If you have any questions that were not covered here, feel free to reach out
