It might be tempting to jump straight into adding data, but taking ten minutes to configure your columns, formulas, and formatting rules will save you hours down the road. Start by defining your column headers clearly. Many users do not realize that prices can vary depending on the time of day, the payment method used, and even the browser you are using. We have found that comparing prices across at least three different sources before making a purchase consistently leads to savings of 10-25%. These small organizational habits might seem trivial, but they save an enormous amount of time when you are managing dozens or hundreds of orders simultaneously.

One tip that consistently saves our readers money when using Oopbuy Complete Guide What You Need To Know is to always check for combined shipping options before placing multiple orders.
