This includes things like shipping carrier rates, tax brackets, platform fee structures, and common product categories. Then use VLOOKUP or INDEX-MATCH to pull this data into your main tracking sheet. This approach keeps your main sheet clean and makes it easy to update reference data without touching your core records. It also means that if fee structures change, you only need to update one cell instead of hundreds of rows. Trust us, this simple habit will save you countless hours.

One thing that experienced buyers always check before purchasing through Dragonmarting Vs Geekbuying Spreadsheet is the seller's reputation and history. Look for sellers with high ratings, a long track record, and responsive customer service. Read both positive and negative reviews to get a balanced picture. Be especially cautious of sellers who have only perfect reviews with generic comments, as these may be fabricated. A few negative reviews are actually a good sign because they indicate the feedback system is genuine.
