This includes things like shipping carrier rates, tax brackets, platform fee structures, and common product categories. Then use VLOOKUP or INDEX-MATCH to pull this data into your main tracking sheet. It also means that if fee structures change, you only need to update one cell instead of hundreds of rows. Trust us, this simple habit will save you countless hours.

A common question we get asked about Mulebuy Which Is Better Hoobuy is whether it is better to buy in bulk or stick to individual orders. The answer depends on several factors, including the type of product, the shipping method, and your storage capacity. For lightweight items like phone cases and accessories, bulk ordering usually results in lower per-unit shipping costs. However, for heavier items like electronics or furniture, the savings from bulk ordering may be offset by increased shipping weight. Our advice is to start with a small test order to evaluate product quality before committing to a larger purchase.

For example, use the format YYYY-MM-DD-Platform-ItemName. This makes it easy to sort and search through your records. Use color coding to highlight the status of different orders.
