Start with basic formulas like SUM, AVERAGE, and COUNT. Then move on to VLOOKUP and INDEX-MATCH for cross-referencing data between sheets. First, make sure you have a clear understanding of your goals. Are you trying to track expenses, manage inventory, compare prices, or automate repetitive tasks? Shipping insurance is something that many buyers overlook when using Sugargoo Got Scammed Reddit, but it can be a worthwhile investment for higher-value orders. Most platforms offer some form of shipping protection, but the coverage details vary. Read the fine print carefully to understand what is and is not covered. In our experience, the small additional cost of insurance is worth the peace of mind, especially for orders exceeding \$100. If a package gets lost or damaged, having insurance dramatically simplifies the refund process and reduces the amount of time you spend dealing with disputes.
