

Freightos Not Working Spreadsheet - Complete Guide (2026)

Category: Shipping & Logistics | Updated: 2026-04-03

Managing your online purchases effectively requires the right tools and knowledge, and understanding Freightos Not Working Spreadsheet is a crucial part of that process. Over the past few months, we have noticed a growing number of people asking questions about this topic in forums, Reddit threads, and Facebook groups. The demand for clear, actionable guidance inspired us to put together this detailed article. By the time you finish reading, you will have a solid understanding of the key concepts and be ready to make informed decisions.

For those who want to get the most out of Freightos Not Working Spreadsheet, learning a few key formulas can make a massive difference. You do not need to be a programmer or a math genius. Start with basic formulas like SUM, AVERAGE, and COUNT. Then move on to VLOOKUP and INDEX-MATCH for cross-referencing data between sheets. Conditional formatting is another powerful feature that can automatically highlight items that need your attention, such as orders that have been pending for more than a week or items where the profit margin falls below a certain threshold. These small improvements compound over time and can significantly boost your productivity.

One of the most common mistakes people make when setting up Freightos Not Working Spreadsheet is skipping the configuration step. It might be tempting to jump straight into adding data, but taking ten minutes to configure your columns, formulas, and formatting rules will save you hours down the road. Start by defining your column headers clearly. For example, if you are tracking orders, you will want columns for order number, date, item name, quantity, unit price, shipping cost, total cost, tracking number, and status. Use data validation to create dropdown menus for fields like status and payment method. This prevents typos and makes filtering much easier.

Shipping insurance is something that many buyers overlook when using Freightos Not Working Spreadsheet, but it can be a worthwhile investment for higher-value orders. Most platforms offer some form of shipping protection, but the coverage details vary. Read the fine print carefully to understand what is and is not covered. In our experience, the small additional cost of insurance is worth the peace of mind, especially for orders exceeding \$100. If a package gets lost or damaged, having insurance dramatically simplifies the refund process and reduces the amount of time you spend dealing with disputes.

If you want to take your Freightos Not Working Spreadsheet workflow to the next level, consider learning basic automation. Tools like Google Apps Script, Zapier, or n8n can automate repetitive tasks like copying data between sheets, sending notifications when order statuses change, or generating summary reports at the end of each week. You do not need to be a developer to set up basic automations. Many platforms offer pre-built templates and tutorials that walk you through the process step by step. Start with one simple automation and gradually build from there as you become more comfortable.

One tip that consistently saves our readers money when using Freightos Not Working Spreadsheet is to always check for combined shipping options before placing multiple orders. Many platforms offer discounted or free shipping when you bundle items from the same warehouse into a single order. This requires some planning, as you may need to wait a day or two until all your desired items are ready to ship. However, the savings can be significant, especially for international orders where individual shipping costs can easily exceed the cost of the items themselves.

If you want to take your Freightos Not Working Spreadsheet workflow to the next level, consider learning basic automation. Tools like Google Apps Script, Zapier, or n8n can automate repetitive tasks like copying data between sheets, sending notifications when order statuses change, or generating summary reports at the end of each week. You do not need to be a developer to set up basic automations. Many platforms offer pre-built templates and tutorials that

walk you through the process step by step. Start with one simple automation and gradually build from there as you become more comfortable.

Whether you are just getting started or looking to optimize your existing workflow, the key takeaway from this guide is that knowledge is your most valuable asset when it comes to Freightos Not Working Spreadsheet. The difference between a frustrating experience and a smooth one often comes down to understanding a few critical details. We have covered those details here, and we hope you will put them to good use. Remember, the community is always here to help, so do not hesitate to ask questions and share your own discoveries.
