

# Freightos Spreadsheet New - Complete Guide (2026)

Category: Shipping & Logistics | Updated: 2026-04-03

We know how frustrating it can be to deal with spreadsheet tools and online shopping platforms without proper guidance. That is why we decided to create the most thorough resource possible on Freightos Spreadsheet New. This is not a quick overview or a sales pitch. It is a genuine deep dive into the topic, covering everything from setup and configuration to advanced tips that even seasoned users might not know about. Grab a cup of coffee and settle in, because this is going to be worth your time.

Here is a pro tip that many experienced users swear by when working with Freightos Spreadsheet New: create a separate sheet for your reference data. This includes things like shipping carrier rates, tax brackets, platform fee structures, and common product categories. Then use VLOOKUP or INDEX-MATCH to pull this data into your main tracking sheet. This approach keeps your main sheet clean and makes it easy to update reference data without touching your core records. It also means that if fee structures change, you only need to update one cell instead of hundreds of rows. Trust us, this simple habit will save you countless hours.

Getting started with Freightos Spreadsheet New is easier than most people think, but there are a few things you should set up correctly from the beginning to avoid headaches later. First, make sure you have a clear understanding of your goals. Are you trying to track expenses, manage inventory, compare prices, or automate repetitive tasks? Once you know your primary objective, you can customize the spreadsheet to match your workflow. Most platforms allow you to import templates, which saves a tremendous amount of time. Look for templates that have been tested by real users rather than generic ones that look pretty but lack functionality.

When it comes to making purchases through Freightos Spreadsheet New, knowing where to look for the best deals can save you a significant amount of money. Many users do not realize that prices can vary depending on the time of day, the payment method used, and even the browser you are using. We have found that comparing prices across at least three different sources before making a purchase consistently leads to savings of 10-25%. Some platforms offer coupon codes that are not advertised on their main page. A quick search on Reddit or coupon aggregation sites often reveals hidden discounts that can be applied at checkout.

Organization is the secret weapon of successful users of Freightos Spreadsheet New. Develop a consistent naming convention for your orders and tracking entries. For example, use the format YYYY-MM-DD-Platform-ItemName. This makes it easy to sort and search through your records. Use color coding to highlight the status of different orders. For instance, green for delivered, yellow for in transit, red for issues, and gray for returned. These small organizational habits might seem trivial, but they save an enormous amount of time when you are managing dozens or hundreds of orders simultaneously.

One tip that consistently saves our readers money when using Freightos Spreadsheet New is to always check for combined shipping options before placing multiple orders. Many platforms offer discounted or free shipping when you bundle items from the same warehouse into a single order. This requires some planning, as you may need to wait a day or two until all your desired items are ready to ship. However, the savings can be significant, especially for international orders where individual shipping costs can easily exceed the cost of the items themselves.

One often overlooked aspect of Freightos Spreadsheet New is the quality of the community and support resources around it. A tool with an active community forum, regular tutorials, and responsive support staff can be far more valuable than a technically superior product with no support ecosystem. Before committing to any platform, spend some time browsing their community forums, reading the documentation, and checking how quickly support tickets are resolved.

These indicators tell you a lot about how the company values its users and how likely they are to address issues when they arise.

At the end of the day, the most successful users of Freightos Spreadsheet New are those who take the time to learn the fundamentals, stay organized, and remain cautious of deals that seem too good to be true. The tools and strategies we have discussed are not complicated, but they do require consistency and attention to detail. Start implementing them today, and you will be surprised at how quickly your efficiency and savings improve. Thank you for reading, and happy shopping!
