

Freightos Spreadsheet Pivot Table - Complete Guide (2026)

Category: Shipping & Logistics | Updated: 2026-04-03

Every day, thousands of people search for Freightos Spreadsheet Pivot Table, but very few find the kind of detailed, no-nonsense information they actually need. Whether you are trying to save money on international shipping, track your orders more efficiently, or simply avoid common pitfalls, this guide has you covered. We have organized the content into clear sections so you can easily jump to whatever topic matters most to you. Feel free to bookmark this page and come back whenever you need a reference.

If you are working with Freightos Spreadsheet Pivot Table across multiple devices, cloud synchronization is something you absolutely need to set up properly. The last thing you want is to accidentally overwrite hours of work because two devices were editing the same file simultaneously. Most modern spreadsheet tools offer version history, which allows you to roll back changes if something goes wrong. We recommend enabling auto-save and setting up a regular backup schedule. Some users prefer to keep a local backup in addition to the cloud version, just to be extra safe. It only takes a few minutes to set up, and it can be a lifesaver.

For those who want to get the most out of Freightos Spreadsheet Pivot Table, learning a few key formulas can make a massive difference. You do not need to be a programmer or a math genius. Start with basic formulas like SUM, AVERAGE, and COUNT. Then move on to VLOOKUP and INDEX-MATCH for cross-referencing data between sheets. Conditional formatting is another powerful feature that can automatically highlight items that need your attention, such as orders that have been pending for more than a week or items where the profit margin falls below a certain threshold. These small improvements compound over time and can significantly boost your productivity.

Shipping insurance is something that many buyers overlook when using Freightos Spreadsheet Pivot Table, but it can be a worthwhile investment for higher-value orders. Most platforms offer some form of shipping protection, but the coverage details vary. Read the fine print carefully to understand what is and is not covered. In our experience, the small additional cost of insurance is worth the peace of mind, especially for orders exceeding \$100. If a package gets lost or damaged, having insurance dramatically simplifies the refund process and reduces the amount of time you spend dealing with disputes.

A common pitfall that catches many Freightos Spreadsheet Pivot Table users off guard is currency conversion fees. Many platforms display prices in USD or EUR but process payments in a different currency. This can result in unfavorable exchange rates and hidden fees that are not immediately visible. We recommend using a currency conversion tool or a fee-free debit card like Wise to make international payments. This gives you the real exchange rate and can save you 3-5% on each transaction compared to using a standard credit card.

A common question we get asked about Freightos Spreadsheet Pivot Table is whether it is better to buy in bulk or stick to individual orders. The answer depends on several factors, including the type of product, the shipping method, and your storage capacity. For lightweight items like phone cases and accessories, bulk ordering usually results in lower per-unit shipping costs. However, for heavier items like electronics or furniture, the savings from bulk ordering may be offset by increased shipping weight. Our advice is to start with a small test order to evaluate product quality before committing to a larger purchase.

At the end of the day, the most successful users of Freightos Spreadsheet Pivot Table are those who take the time to learn the fundamentals, stay organized, and remain cautious of deals that seem too good to be true. The tools and strategies we have discussed are not complicated, but they do require consistency and attention to detail. Start implementing them today, and you will be surprised at how quickly your efficiency and savings improve. Thank you for
