If you are working with Sugargoo Spreadsheet For Sourcing Agents across multiple devices, cloud synchronization is something you absolutely need to set up properly. The last thing you want is to accidentally overwrite hours of work because two devices were editing the same file simultaneously. Most modern spreadsheet tools offer version history, which allows you to roll back changes if something goes wrong. We recommend enabling auto-save and setting up a regular backup schedule. Some users prefer to keep a local backup in addition to the cloud version, just to be extra safe. It only takes a few minutes to set up, and it can be a lifesaver.

In our experience, the small additional cost of insurance is worth the peace of mind, especially for orders exceeding \$100. If a package gets lost or damaged, having insurance dramatically simplifies the refund process and reduces the amount of time you spend dealing with disputes.
