Here is a pro tip that many experienced users swear by when working with Joyabuy Never Arrived Spreadsheet: create a separate sheet for your reference data. This includes things like shipping carrier rates, tax brackets, platform fee structures, and common product categories. Then use VLOOKUP or INDEX-MATCH to pull this data into your main tracking sheet. These small organizational habits might seem trivial, but they save an enormous amount of time when you are managing dozens or hundreds of orders simultaneously.

A common question we get asked about Joyabuy Never Arrived Spreadsheet is whether it is better to buy in bulk or stick to individual orders. The answer depends on several factors, including the type of product, the shipping method, and your storage capacity.
