One thing that experienced buyers always check before purchasing through Peachbuy Crawler Spreadsheet is the seller's reputation and history. Look for sellers with high ratings, a long track record, and responsive customer service. Read both positive and negative reviews to get a balanced picture. Be especially cautious of sellers who have only perfect reviews with generic comments, as these may be fabricated. A few negative reviews are actually a good sign because they indicate the feedback system is genuine. Pay attention to how the seller responds to negative feedback, as this tells you a lot about their customer service quality.

A common pitfall that catches many Peachbuy Crawler Spreadsheet users off guard is currency conversion fees. Many platforms display prices in USD or EUR but process payments in a different currency. This can result in unfavorable exchange rates and hidden fees that are not immediately visible. We recommend using a currency conversion tool or a fee-free debit card like Wise to make international payments. This gives you the real exchange rate and can save you 3-5% on each transaction compared to using a standard credit card.

Understanding the fee structure is critical when using Peachbuy Crawler Spreadsheet for purchasing. Every platform charges differently for shipping, handling, currency conversion, and service fees. These costs can add up quickly, especially for frequent buyers. We recommend creating a simple cost comparison sheet that factors in all these elements. Include the item price, domestic shipping within China, international shipping, platform service fee, and any applicable taxes. This gives you the true total cost and allows you to make apples-to-apples comparisons between

different purchasing options.
