Here is a pro tip that many experienced users swear by when working with Wegobuy Crawler Spreadsheet: create a separate sheet for your reference data. This includes things like shipping carrier rates, tax brackets, platform fee structures, and common product categories. Then use VLOOKUP or INDEX-MATCH to pull this data into your main tracking sheet. This approach keeps your main sheet clean and makes it easy to update reference data without touching your core records. It also means that if fee structures change, you only need to update one cell instead of hundreds of rows. Trust us, this simple habit will save you countless hours.

Understanding the fee structure is critical when using Wegobuy Crawler Spreadsheet for purchasing. Every platform charges differently for shipping, handling, currency conversion, and service fees. These costs can add up quickly, especially for frequent buyers. We recommend creating a simple cost comparison sheet that factors in all these elements. Include the item price, domestic shipping within China, international shipping, platform service fee, and any applicable taxes. This gives you the true total cost and allows you to make apples-to-apples comparisons between different purchasing options.

If you want to take your Wegobuy Crawler Spreadsheet workflow to the next level, consider learning basic automation. Tools like Google Apps Script, Zapier, or n8n can automate repetitive tasks like copying data between sheets, sending notifications when order statuses change, or generating summary reports at the end of each week. You do not need to be a developer to set up basic automations. Many platforms offer pre-built templates and tutorials that walk you through the process step by step. Start with one simple automation and gradually build from there as you become more comfortable.

Here are some tips that we wish someone had told us when we first started with Wegobuy Crawler Spreadsheet. First, always use a dedicated email address for your shopping accounts. This keeps your main inbox clean and makes it easier to track order-related communications. Second, set up price alerts for items you are interested in. Many platforms and tools allow you to set a target price, and you will get notified when the item drops to that level. Third, take advantage of seasonal sales and events like Singles Day, Black Friday, and end-of-season clearances. Planning your purchases around these events can lead to substantial savings.

If you suspect you have been scammed while using Wegobuy Crawler Spreadsheet, do not panic. There are steps you can take to recover your money or at least minimize the damage. First, document everything. Take screenshots of the product listing, your order confirmation, payment receipts, and any communication with the seller or platform. Then

contact your payment provider to dispute the charge. Most credit card companies and services like PayPal offer buyer protection that covers fraudulent transactions. The key is to act quickly, as there are usually time limits for filing disputes. Also, report the scam to the platform so they can investigate and prevent others from falling victim.

We have covered the essentials, shared practical tips, warned you about common scams, and provided guidance on how to get the most out of your tools and platforms.
