Look for sellers with high ratings, a long track record, and responsive customer service. Read both positive and negative reviews to get a balanced picture. Be especially cautious of sellers who have only perfect reviews with generic comments, as these may be fabricated. A few negative reviews are actually a good sign because they indicate the feedback system is genuine. Pay attention to how the seller responds to negative feedback, as this tells you a lot about their customer service quality.

These small organizational habits might seem trivial, but they save an enormous amount of time when you are managing dozens or hundreds of orders simultaneously.
