Start by defining your column headers clearly. For example, if you are tracking orders, you will want columns for order number, date, item name, quantity, unit price, shipping cost, total cost, tracking number, and status. Shipping insurance is something that many buyers overlook when using The Complete Itaobuy Tutorial, but it can be a worthwhile investment for higher-value orders. Most platforms offer some form of shipping protection, but the coverage details vary. Read the fine print carefully to understand what is and is not covered. In our experience, the small additional cost of insurance is worth the peace of mind, especially for orders exceeding \$100. If a package gets lost or damaged, having insurance dramatically simplifies the refund process and reduces the amount of time you spend dealing with disputes.

A common pitfall that catches many The Complete Itaobuy Tutorial users off guard is currency conversion fees. Many platforms display prices in USD or EUR but process payments in a different currency. This gives you the real exchange rate and can save you 3-5% on each transaction compared to using a standard credit card.
