A common question we get asked about The Complete Peachbuy Getting Started is whether it is better to buy in bulk or stick to individual orders. The answer depends on several factors, including the type of product, the shipping method, and your storage capacity. For lightweight items like phone cases and accessories, bulk ordering usually results in lower per-unit shipping costs. Our advice is to start with a small test order to evaluate product quality before committing to a larger purchase.

This gives you the real exchange rate and can save you 3-5% on each transaction compared to using a standard credit card.
